

Our Social Mission

Founded on the belief that every voice deserves to be heard, VocaliD creates personalized AI-voices. For those born with severe speech impairments, our algorithms combine recipient vocalizations with recordings of matched speaker(s) who have contributed to our crowdsourced Voicebank to generate a unique, **BeSpoke** voice that resembles the recipient's vocal identity. For those facing speech loss through illness or surgery, we recreate their **Vocal Legacy** voice from their own recordings.

BeSpoke and Vocal Legacy AI-voices have vastly improved the communication capabilities of hundreds of individuals living with speechlessness and given their family and friends a means to maintain the powerful and personal connection of voice.

Your Partnership Helps!

By choosing to participate in corporate voice-sharing and/or voice sponsorship, you are helping amplify awareness of speechlessness and the power of voice-sharing. Together, we can change lives!

FAQs

Is this 100% home-based?

Yes! Voice-sharing is easy and all you need is a computer (no tablets or mobile devices), a quiet room at home, and a gaming headset with microphone.

Who can participate?

Any English-speaking individuals may participate; there are no restriction on age, gender, or regional/national accents. We celebrate the beauty and diversity of the human voice.

Will the BeSpoke AI-voice sound like me?

No, not exactly. BeSpoke voices are a blended combination of your recordings and the recipients vocal DNA.

Is VocaliD a non-profit?

No. We are a for-profit company with a strong social mission that relies on our crowdsourced Human Voicebank to power our assistive technology products.

Get Started

Contact VocaliD

We are eager to help you set up a program that works for you and your employees. Email us at: hello@vocalid.ai

Host a VoiceDrive

Your participation can be created as an "always-on" initiative or a specific scheduled volunteer event. Recording on our platform is free and only requires minimal investment in time. Learn more: vocalid.ai/ambassador

Become a Voice Sponsor

For companies that want to do more, we also offer the ability for Voice Sponsorship. Purchasing AI-voices for those in need helps to ensure that *everyone* has a voice.

Promote Your Program

The VocaliD Voice Champion Badge is a way for companies to get more promotional value from their participation. Proudly display and promote your involvement across your channels!

PROGRAMS

The world has changed, but your company's commitment to helping others hasn't.

Especially now, your employees are looking for meaningful ways to engage and volunteer — safely. Our corporate volunteer program offers your staff a profound way to impact the lives of those living with speechlessness.

Tap into our global Human Voicebank Initiative that has garnered worldwide press coverage (Bloomberg, BBC, TED, Washington Post, and more) as an innovative means of changing lives.

Beginning in Fall 2020, all CSR partners will be promoted on our website & across our social channels. Additionally, partners will be eligible to earn badges based on organization-wide participation.
